a
MG 0
Wind speed, SD
Mean temperature
Irrigated share of cropland
Dew point temperature, SD
Air temperature (monthly mean)
Vapor pressure deficit, SD
Dew point temperature
Share of water capacity below 30 cm
Minimum air temperature
Mean temperature, July to August
0
2
4
6
b
MG I
Mean temperature, May to June
Growing degree days
Air temperature (monthly mean)
Mean temperature
Mean temperature, July to August
Available water capacity, 30 to 60 cm
Mean daily maximum temperature
Available water capacity, 0 to 100 cm
Maximum air temperature
Vapor pressure deficit, May to June
0
2

8
10
c
MG II
Organic matter, 60 to 100 cm
Vapor pressure deficit, July to August
Vapor pressure deficit, 90th percentile
Vapor pressure deficit, May to June
Organic matter, 30 to 60 cm
Vapor pressure deficit, SD
Vapor pressure deficit
Mean temperature
Wind speed
July maximum temperature, 90th percentile
0
2
4
6
d
MG III
Corn to soybean area ratio
Surface pressure, SD
Dew point temperature
Wind speed
Wind speed, SD
July maximum temperature, 90th percentile
Saturated hydraulic conductivity, 0 to 30 cm
Clay, 0 to 30 cm
Relative humidity
Vapor pressure deficit, May to June
0
2
4
6
8
e
MG IV
Mean temperature, May to June
Air temperature (monthly mean)
Mean temperature
Growing degree days
Wind speed
Solar radiation, July to August
Vapor pressure deficit, late to early ratio
Solar radiation, May to June
Dew point temperature
Precipitation, SD
